Dear Sir:

DECLARATION UNDER RULE 132

1. My name is Kenneth A. Sumrall. I am over the age of 21 years, of sound mind, and competent in all respects to make this Declaration. I am an inventor of the above-identified patent application and a principal of Edsoft Software Co. ("Edsoft"), the assignee.

2. Edsoft has licensed and/or sold software products embodying the inventions throughout the local Dallas/Fort Worth area, where it has met with much commercial success, as well as successful sales and/or licenses throughout Texas and in South Carolina, and Virginia.

3. Our customers have been generally very happy with the product. I attribute one reason for this commercial success to the combination of the plurality of functionalities in the educational software that were not previously put together in a single integrated piece of software.

4. I believe the commercial success of this product is due primarily to the desirability of the product as opposed to marketing efforts. Edsoft has had very limited marketing efforts.

5. I hereby declare that all statements made herein and of our knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and such willful false statements may jeopardize the validity of the application or any patent issued thereon.
